PRICE TWO CENTS

A Shattered Nervous System. FINALLY HEART TROUBLE.

Restored to Health by Dr. Miles' Nervine.

M. EDWARD HARDY, the jolly manager of Sheppard Co.'s great store at Briceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became dependent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

IN OPEN MUTINY

Three Camp Hamilton Regiments Secretly Agree to Rebel.

GENERAL SANGER'S ORDER

Third Kentucky, One Hundred and Sixtieth Indiana and Twelfth New York Will Do No Camp Work Until the Order Regarding Passes is Modified—Say They Cannot Go to Town for a Bath.

Lexington, Ky., Oct. 29.—On account of their disorderly conduct and the several shooting scraps caused by the presence of the soldiers in Lexington at night, General Sanger, division commander, a few weeks ago issued an order allowing but two passes issued from one company at a time and compelling all soldiers to be back in camp at dark. This stringency has affected the line of floors as well, and now, as payday is drawing near the men are chafing under it.

In the Third Kentucky, One Hundred and Sixtieth Indiana and Twelfth New York there is open mutiny. The members of these regiments secretly agreed to rebel against doing any camp service until the order was modified concerning the issuing of passes. The plan as detailed by one of the men of the territorial regiments, was that when the battalions went on dress parade yesterday afternoon the men were to stack arms and refuse to further drill until a change was made in the order of issuing passes.

The officers got wind of the matter and at the last moment an order was issued suspending dress parade for the present. A modification of the order will probably be made, but if it is not serious trouble promises. There are no bath houses at camp and the men complain that they are not even allowed to come to town to take baths when they have money to pay for them. Thus they cannot keep themselves in a sanitary condition.

CUBAN NEWS.

General Wood Visits Manzanillo—Commander of the Hist.

Manzanillo, Oct. 29.—The United States gunboat Hist arrived here last night with General Leonard Wood, commander of the military department of Santiago, accompanied by Lieutenant Matthew Hanna. On landing General Wood was visited by Colonel Pettit and his adjutant, and he was subsequently received by Colonel Pettit's entire regiment. General Wood then visited the barracks, hospitals, palaces, customhouse and postoffice.

Colonel Pettit reports that Cuban General Rios is apparently making every effort to prevent the disbanding of his troops.

Lieutenant Lucien Young, the commander of the Hist, created more excitement on landing than even General Wood himself. Crowds gathered at the wharf to see the young commander, who, with Lieutenants Holme and Jansen of the Hornet and Wampatuck, defeated a whole flotilla of Spanish gunboats at Manzanillo on July 1 last. The people of Manzanillo consider Lieutenant Young a hero and a terror and think he ought to be an admiral, for, although the Spanish shore batteries in that memorable engagement continued to bombard the American gunboats, it is generally admitted here that it was the shooting of the Hist that caused people to flee to the mountains.

According to reports from the Cuban assembly at Santa Cruz del Sur, General Calixto Garcia has been chosen permanent chairman of the organization. General Maximino Gomez is expected there tomorrow or the next day and it appears that the Cespedes faction believes it can count upon the help of General

There are many thousands of men in this country who, when they found that they were suffering from weakness or disease of their distinctively womanly organs, promptly wrote to an eminent and skillful physician, with a world-wide reputation, instead of trusting their cases to some obscure physician with but limited practice and experience. There are many reasons why a wise woman should follow this course. The chances are that an obscure physician of small practice will not diagnose troubles of this nature properly. If he does, he will insist on the Jonoxious examinations and local treatment from which every sensitive, modest woman shrinks.

The specialist referred to is Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Thirty years ago he discovered a wonderful medicine for diseases peculiar to women, that may be used effectively in the privacy of the home, and does away with all necessity for examinations and local treatment. This medicine is known as Dr. Pierce's Favorite Prescription. It acts directly on the delicate and important organs concerned in wifehood and motherhood. It makes them strong, healthy and vigorous. It allays inflammation, heals ulceration, soothes pain and tones and builds up the nerves. Taken during the period of prospective maternity, it banishes the usual discomforts and makes baby's coming easy and almost painless. It insures the little new-comer's health and an ample supply of nourishment. Over ninety thousand women have testified to its marvelous merits. Medicine dealers sell it.

It is a druggist's business to give you, not to tell you, what you want. Any willing woman may write to Dr. R. V. Pierce, Buffalo, N. Y., and get free advice. By enclosing 21 one-cent stamps in her letter, to cover cost of mailing only, she may secure a paper-covered copy of the "People's Common Sense Medical Adviser." Cloth bound, 51 stamps.

United States to break the authority of Garcia. The Cespedes faction expect General Gomez to appoint a court martial to try General Garcia for offenses covering practically everything from murder to petty larceny, but the probability is that General Gomez, recognizing Garcia's ascendancy in the assembly will not force the issue.

THE MAINE.

Acme Wrecking Company Asks Authority to Raise the Battleship.

Washington, Oct. 29.—The Acme Wrecking company of San Francisco has made a request upon the navy department for authority to raise the battleship Maine. The company has had experience in raising vessels on the Pacific coast, and representations have been made to the department as to its ability to accomplish the task in Havana harbor.

The company simply asks authority to raise the Maine and bring her to this country. If the government wants the ship after she reaches the United States the company will want to be paid salvage money through condemnation proceedings. It is probable in case the government did not want the ship the company would exhibit her in the different large seacoast cities of the United States. No money is demanded from the government by the company. It is stated at the department unofficially that in case the company is found reliable the authority asked will no doubt be given.

PARIS PRESS.

Comments of the Newspapers on the Peace Commission.

Paris, Oct. 29.—La Volente discussing the Philippine question today says: "The Americans could well make concessions to compensate for their rigor on the Cuban question." Quoting the Philippine article of the protocol, the paper says: "The wording is vague and forecasts the Spanish contention relative to the meaning of the words 'control' and 'disposition.'" "Spain," La Volente concludes, "is minus money and a fleet to reestablish order and it would be more prudent to allow the Americans to do so, Spain claiming a money indemnity in exchange for her sovereignty over the archipelago, which it would be difficult for the Americans to refuse."

The Gaulois takes the view that the Cuban question was not settled by itself, and that by counter-concessions on the Philippine questions an arrangement mutually satisfactory will be reached. "But, in the meanwhile," The Gaulois adds, "no decision is possible before the elections, which is according to the desire of the American commission."

CAMPUS GOES TO PARIS.

Madrid, Oct. 29.—Marshall Martinez Campos, after an audience with queen regent and prolonged conference with the minister of finance, Senor Puigcerver, left last evening for Paris with important papers for the Spanish peace commissioners.

SCALE AGREED TO.

Glass Manufacturers and Cutters and Flatteners Come Together.

Pittsburg, Oct. 29.—After several months of parleying the scale committees of the American Glass Co., and the representatives of the cutters and flatteners came to an agreement last night. The manufacturers concluded to pay the wages asked by the two trades in question with the understanding that work is to be resumed Thursday morning. On this day the first glass will be blown, provided there are sufficient blowers and gatherers to give the cutters and flatteners work. The starting will be an experiment.

It is understood that the break will first be made in factories where the blowers and gatherers are not in sympathy with Simon Burns, the president of the organization. The officials of the combination say they have assurances from a sufficient number of the various trades that work will be resumed and continued until the season is exhausted.

M. BARD'S REPORT.

The Impression Left on Paris is "Profound, Painful and Discouraging."

London, Oct. 29.—In moderate circles, according to the Paris correspondent of the Times, where a serious effort is being made to discover the truth in the Dreyfus affair, the impression left by the report of M. Bard, official reporter to the court of cassation, and by the requisitoire (petition) of M. Manau, the procurator general, is "profound, painful and discouraging."

The correspondent of the Times continues: "The thought which weighs like a pall on the country seems to be a reluctance to believe the complete innocence of Dreyfus, because such a belief would involve such terrible censure of those responsible, knowingly or unknowingly, for his condemnation."

Indigent Jamaicans.

Kingston, Jamaica, Oct. 29.—The recent wholesale emigration of indigent Jamaicans to the island of Cuba has evoked a protest from the American authorities at Santiago, and the local government here yesterday issued a memorandum quoting the protest of the American officials and warning British subjects not to proceed to Cuba without adequate means of support.

Big Judgement.

Frankfort, Ky., Oct. 29.—The court of appeals has rendered a decision in favor of Schmidt, trustee, in the suit of the Cumberland and Ohio bondholders against the Louisville and Nashville under which the Louisville and Nashville must pay to the bondholders about \$90,000 interest and penalties, the collection of which it has been resisting.

Hammond, Ind., Oct. 29.—General Wilson, chief of engineers, says that \$250,000 will be needed to complete the work on the Calumet harbor and the Grand Calumet river, and recommends that \$100,000 of that amount be asked for in the next river and harbor act. He says that such an appropriation can be profitably expended in the improvement of the river in this city.

CHICKAMAUGA PARK

War Investigation Commission Inspects Camp Thomas.

THE STERNBERG HOSPITAL

Methods of the Institution Commended. Camps Were Located Too Close Together—Statement of Frank A. Bailey Denied—Dr. Craig Says Water Supply From Chickamauga River was Pure.

Chattanooga, Oct. 29.—The war investigating commission spent yesterday in inspecting Camp Thomas under the guidance of General Boynton, General A. P. Stewart, a member of the Chickamauga park commission, and E. E. Betts the engineer of the committee.

The inspection began at Lytle station and covered all points of interest in the park and near its borders which have been in any way involved in the controversy concerning the sanitation of the camp, including Sternberg and Leiter hospitals, the various springs from which water was secured by the troops, including the famous Crawfish creek at which the water of the pipeline supply was taken out.

Special attention was given to this latter place because of the criticisms that have been made upon this source of the camp's water supply.

There were many expressions of commendation of the methods followed at Sternberg hospital, and General Dodge was heard to remark that it was a pity to have to leave an institution so well equipped. They found only 58 patients in the hospital, and most of these were convalescent. All were housed in wooden pavilions, the tents being vacated. The commission also gave attention to the proximity of the various camps to one another and the depth and location of the sinks. The conclusion seemed quite general that many of the regiments were thrown more closely together than they should have been and that this fault could have been avoided, as there was sufficient space that was not occupied for the accommodation of many thousands more of troops than were ever present there.

Many of the sinks were also found to have been nearer to the tents than proper ideas of sanitation encourage, and in some cases the character of the surface was found to be such as to warrant the conviction that the sinks were shallower than they should have been.

After concluding the inspection of the camp, Major Giffen was asked to make a statement concerning some criticisms of the hospital made in a Vermont newspaper by Frank A. Bailey, who had spent six weeks in the hospital nursing his brother. When he returned home he wrote an article saying, among other things, that he had heard physicians in the hospital tell attendants to give attention to patients who had a chance to recover and not to nurse those who were sure to die, in the presence of those designated as of the latter class, and that he had heard other physicians instruct their helpers to give ice cold baths with the view of "finishing" their patients. Dr. Giffen pronounced as false all the statements made.

Dr. Charles F. Craig, bacteriologist of the Sternberg hospital, was also examined. He was questioned with reference to the water supply of the camp and he expressed the opinion that the water taken from Chickamauga river through the pipe system was purer than that in the wells and springs of the grounds. He had found some sewer bacilli in one or two wells, though no typhoid germs. He had also found impurities in water taken from the springs. He had made two analyses of the water from the river and found it to be entirely wholesome from a bacteriologic standpoint.

Dr. Craig expressed the decided opinion that common house flies are capable of proving a decided source of disease infection and he detailed bacteriologic tests showing that they carried typhoid germs upon their feet. He also said that he had macerated a number of flies which had been placed on sugar impregnated with the germ and had procured from them a pure typhoid bacillus culture.

POLITICAL

Hill and Roosevelt Both Speak to Large Audiences.

Elmira, N. Y., Oct. 29.—Ex-Senator Hill made his first political speech since 1894 in his native city last night in the presence of an audience that crowded every available inch of space in the Lyceum theater. Mr. Hill's address was delivered in his usual vigorous style and elicited great applause at times. He did not make mention of the national Democratic platform nor the silver issue, except to say: "We will cross no bridges until we come to them. Nineteen hundred will take care of itself."

Colonel Roosevelt.

Utica, N. Y., Oct. 29.—Colonel Roosevelt addressed a large gathering in Music hall here last night. He devoted himself largely to an arraignment of the Democratic party upon matters of state taxation. He said in conclusion: "My opponents ask you to vote only as New Yorkers; I ask you to vote as Americans; I ask you to keep in mind, carefully every matter concerning the welfare of New York. But I ask you also to remember that you are not only New Yorkers, but Americans; that you have interests not only in the state, but in the union which is greater than any state."

BRADSTREET

Trade Situation One of Exceptional Activity and Strength.

New York, Oct. 29.—Bradstreet today says: Irregularity in prices and trade movements has been rather more marked this week than for some time past, but measured by all the usual standards of business development, the situation is one of exceptional activity and even strength. The active foreign demand at advancing prices for American cereals and their products appeared to have culminated early in the week in a virtual "war scare" market, in which the highest prices reached since early in August were recorded. The reaction shown, however, has been a small one; testifying to nervousness both at home and abroad, growing out of the exceptionally small gains in world's supplies, reports of damage to wheat in the fields in the northwest and in Manitoba; active milling demand for wheat at home, Minneapolis breaking all records of flour production for the week, and a continuance of the talk of rather less than anticipated out turns of crops abroad noted for some time past.

In distributive trade, reports of bad weather interfering with regular demand and collections, but as stimulating retail trade in heavy winter goods, coming from the west and northwest, whence also come advices of bad roads, crippling farmer's ability to deliver wheat to market.

A great burst of activity in nearly all lines has followed the freeing of the lower Mississippi valley sections from the numerous quarantines and country buying is reported active, being particularly stimulated by colder weather in that section.

COAL MINERS

Litchfield 11 (Ills.) Men Go on Strike Because Nine Men Are Discharged.

Springfield, Ill., Oct. 29.—The miners in the Litchfield coal company's mine at Litchfield, operated by Captain David Davis, Company K, Fourth Illinois infantry volunteers, have struck because nine fellow workmen were discharged. The men in question had been discharged before the war with Spain broke out, but while Captain Davis was away with his regiment, they were reinstated. When he returned he promptly discharged them, and the strike resulted.

RESUMES OFFICE.

Colonel Daniel R. Collier Again Attorney General of Kentucky.

Frankfort, Ky., Oct. 29.—Adjutant General Smith has tendered his resignation and has been succeeded in office by Colonel Daniel R. Collier. The latter resigned two months ago, and Smith succeeded him, but found the duties so heavy that they kept him away from his large business interests to such an extent that he was forced to give it up. Governor Bradley thereupon prevailed upon General Collier to return to the service, and he reluctantly acquiesced.

IN THE STREET

Fannie In-hell Killed by Her Uncle—She Refused to Marry Him.

Lenora, Kan., Oct. 29.—William Elliott followed Miss Fannie Lashell and her sister home from a dance and, shooting over the head of the sister, who tried to save her, killed the first named in the street. He then fired three shots into his own body and may die. Elliott came here from Chicago three weeks ago. Notwithstanding he is the girl's uncle he had persisted in paying her attentions. The shooting was the result of her refusal to marry him.

WILD BILL TURNER'S

Alleged Sayer Captured and Put Under a \$2,000 Bond.

Middlesborough, Ky., Oct. 29.—Detective Charles Cecil of this city, captured Will Combs, the alleged slayer of "Wild Bill" Turner, in Knox county, yesterday. Combs was bound over to court, bail being fixed at \$2,000, which he was unable to furnish. Upon reflection the dead man's relatives seem disposed to let the law take its course.

Houghton, Mich., Oct. 29.—Boiler No. 8 of the Calumet and Hecla stamping mill here exploded, instantly killing John Gillies and Stephen Boiera, employees of the mill, and William Nelson of Bruce Mines, Ont., a friend who was visiting Gillies. The people of Jackson county de-
serve county officers who will perform
all their duties under the statute with-
out being forced to do so by the courts.

GENERAL Bragg, the famous democ-
rat of Wisconsin, has arrived home to vote
but not the democratic ticket. He is
stubborn and refuses to swallow free-
silver, declaring that he shall vote the
republican ticket as the only way to
avoid national dishonesty and ruin.

We have always thought there must
be some good in Evangelist Sam Jones,
though it was slow in coming out. To
a reporter in Louisville he said:
"President McKinley is not only a good
clean, Christian man, but he is a good,
clean, safe, conservative President."
Journal.

The Crothersville Commercial con-
tinues to urge the election of John W.
Hamacher for commissioner, yet it
claims to be a democratic paper. Not
strange, though, when you know the
purpose of Hamacher's candidacy.
And then, too, it might be well to
remember that Hamacher is no longer
in line with his party and is urging his
republican friends to vote for John
Burrell.

Oscar Brooke, ring candidate for re-
corder, let it be known here this week
that the Brownstown democratic crowd
was working in conjunction with that
self-styled "loyal" faction to keep every
man off the election board who is not
in sympathy with the old ring. What
do the people think of such lawless and
outrageous purposes? Can the affairs of
the county be entrusted to men who
even at empty vote a scheme?

The fact that the indebtedness of
Jackson county was \$129,960 the first of
April and that it has been increasing at
a rapid rate since that time does not
commend the Burrell crowd to the tax-
payers at all favorable. The ring is
trying hard to explain this indebted-
ness, which is twice as much as any
other county in this part of the state.
Lawrence county, which is by no means
behind the times in the matter of pub-
lic improvements, has an indebtedness
of \$60,000. Bartholomew county, a
county that can not be considered other
than a progressive county, has an in-
debtedness of \$57,000. No other county
adjoining or in this part of Indiana, has
a debt that even approaches it half way.
These conditions are causing the tax-
payers to conclude that they must unite
to overthrow the gang that has been
running the affairs of the county in the
interest of themselves so many years.
They will vote for men whose names
are on the ballot under the open book.

of those. The publishers have endeav-
ored to make it the finest calendar of
the century, and readers of the Com-

THE YOUTH'S COMPANION.

211 Columbus Ave., Boston, Mass.
McClure's Magazine for November.

In timeliness, variety, and positive-
ness of quality and interest the Novem-
ber number of McClure's must be pro-
nounced a rare magazine. A character
sketch of Colonel Theodore Roosevelt
presents, in its full picturesqueness, the
personality of one of the most indepen-
dent, original, and forceful of living
Americans. "The Inner History of
Admiral Sampson's Campaign," gives
the full and true story of the finding
and securing of Cervera's fleet. Mr. H.
J. W. Dam's portrayal of "The Mystery
of Vesuvius," as it was exhibited to him
in his own recent explorations of the
volcano, gives a sense of the profundity
and mightiness of the volcano not found
elsewhere. Then there are three o-
four very strong short stories—one by
Stephen Crane that shows him to great
advantage in an entirely new field.
The pictures of the number are notable
also—illustrating the several articles
with singular truth and spirit.

GENUINELY HARD UP.

Out of Three Hundred Accepting Free
Beds Only Five Had "The Price."

A short time ago a curious test was
applied at the London Congregational
Union's Free Shelter For Homeless Men
at Medland hall, in the east of London.
The object of the test was to ascertain
if the men were really as penniless as
they represented themselves to be. The
free shelter is intended for men who
have not the fourpence necessary to pay
for a night's lodging elsewhere, and one
night Edward Wilson Gates, the shrewd
superintendent of the philanthropic
work of the union, announced that he
would give sixpence to each man present
who could prove that he had some
money, but less than fourpence. A chuck-
ling laugh passed over the 300, that
being the maximum allowed in the hall.
"But how shall I know that you have
less than fourpence?" asked Mr. Gates.
"Search us!" cried the men.
"Yes."

"Very well, but if any one objects let
him go to the gallery, and I guarantee
that he shall not be turned away."

Only five of the 300 went up stairs,
and the others were thoroughly search-
ed by experienced men. Two hundred
and forty-nine had nothing, one had a
farthing, 11 had a halfpenny, one had
three farthings, 13 had a penny, two
had a penny farthing, four had three
halfpence, nine twopenny, three two-
pence halfpenny and two had threepence
halfpenny. Thus out of the 300 men
295 had not the fourpence necessary for
a "fo'penny doss" at a lodging house.
It seems pretty clear, therefore, that the
men were genuinely "hard up."—Lon-
don Quiver.

MOTHER! There is no

O Ye of Little Faith

But when an honest man 67 years of age
and who has live in our city for thirty years
and owns his own property speaks, we must
give ear to his words and have faith in what
he recommends. For that reason we publish
for the benefit of Seymour people the state-
ment of Mr. A. H. West, 211 North St., Saginaw,
Mich., as follows: "My back was very
lame, was quite nervous at times, and my
general health was seriously impaired.
Some time ago I was induced try Morrow's
Kidney-cure of which I had heard a great
deal, and I procured the remedy. I had not
much faith in it as I had previously tried a
large number of kidney pills and kidney
remedies without any particular benefit but
I want to say that I got simply wonderful
relief within two days after commencing the
use of Kidney-cure and that I am now en-
tirely cured."

I regard my case as severe test of the me-
dicine, as so many others had failed me.
My advice to kidney sufferers is to give
Morrow's Kidney-cure a thorough trial and
no relief need be feared.

Mr. West had no faith at first but the assur-
ance of his friends induced him to try once
more. The result is given above. Let Mr.
West be your friend and if you suffer with
backache, sleeplessness, nervousness or
take his advice and use Morrow's Kid-
ney-cure and get cured. Mr. West is a grateful
man and will be glad to write you how much
benefitted by the use of Morrow's Kid-
ney-cure. If you will enclose a stamp for reply
Do not confound Morrow's Kidney-cure with
any kind of kidney pills; they are not pills
at all but yellow tablets which are put up in
wooden boxes and sell at 50 cents. Morrow's
Liver-lax are very small red pellets and cure
constipation; they sell at 25 cents a box.
Both of these remedies are for sale by all
first class druggists and at Alpha Cox Drug
Store or will be mailed by the manufacture
on receipt of price: John Morrow & Co.,
Columbus, Springfield Ohio.

IN EXPRESS OFFICE

The Alleged Rebber of
the Flora Bank Is
Captured.

SHOT THE WRONG WOMAN

Tinplate Workers Agitating a Summer
Shutdown to Reduce Production—State
Benevolent Boards—Fifty Men Thrown
Out of Employment by Fire—Arrested
at the Prison Door.

Flora, Ind., Oct. 29.—George Martin,
suspected of having robbed the bank at
this place of \$10,000 last September,
was arrested at Marion late yesterday.
Detectives have been on Martin's track
for some time. It was learned that he
was to receive an express package and
an officer was concealed in the Adams
express office when Martin entered and
asked if there was a package for him.
He was then placed under arrest. The
package was found to contain needles.
Martin claims to be a needle peddler.

NEW SCHEME.

Tinplate Workers Agitating a Summer
Shutdown to Reduce Production.

Elwood, Ind., Oct. 29.—A new move-
ment has been started by the tinplate
workers, and it will be taken up by
unionized tinplate employees all over the
United States. Heretofore, the tinplate
factories, unlike the glass industries,
have had no summer stops, and, as a
result, their wages are threatened by an
over production. This can be remedied
only by a suspension of work for a pe-
riod of six weeks or two months during
the hot season. The plan, they argue,
would lower the markets to such an ex-
tent that the manufacturers would be
able to demand higher prices for their
goods, and the result would mean an
advance in the wages of the working-
men.

BUILT HIS TOMB.

David Dow Buried in a Vault Made by
His Own Hands.

Sellersburg, Ind., Oct. 29.—David
Dow, a pioneer resident and a promi-
nent and wealthy farmer near here is
dead. Death resulted from pneumonia,
superinduced by injuries sustained from
being thrown from a wagon four weeks
ago. He leaves an estate valued at
\$600,000. About three years ago Mr.
Dow constructed on his farm with his
own hands a vault in which he desired
to be buried, and the remains were in-
terred in the vault today.

SHOT HIS MOTHER.

George Everroad Attempts to Kill His
Wife.

Hope, Ind., Oct. 29.—George Ever-
road of this place, shot twice at his wife
and missed her, one of the bullets strik-
ing his mother and severely wounding
her. He then escaped. Everroad was
trying to force his wife to live with
him. His mother is not fatally injured.

Benevolent Boards.

Indianapolis, Oct. 29.—The term of
one member of each of the boards in
charge of state benevolent, reformatory
and penal institutions will expire Jan.
1, and it is said to be the intention of
the governor to reappoint the men
whose terms will expire at that time.
He believes the public institutions of
the state were never so free from po-
litical influences and never better con-
ducted than at this time.

Spurious Coin at Marion.

Marion, Ind., Oct. 29.—George Dale,
a half-breed Indian, was arrested for
attempting to pass a counterfeit dollar.
It now develops that there is a good deal
of spurious coin, dollars and halves,
floating about town. One saloonkeeper
in North Marion has seven or eight
pieces of the counterfeit, taken in in
the last few days.

Fifty Men Thrown Out of Work.

St. Croix, Ind., Oct. 29.—The Flick-
enstein-Judge sawmill of this place was
destroyed by fire together with a large
quantity of manufactured material.
The business of the company was saw-
ing black walnut stumps into veneering
stuff, and cutting maple and white wal-
nut into gunstocks, etc. Fifty men are
thrown out of work by the fire.

Valuable Porker.

Elwood, Ind., Oct. 29.—James Sisson,
a prominent farmer living northeast of
here, has the champion brood sow of
the country. During the last 17 months
she gave birth to 64 pigs. There were
four litters, 15 in one, 16 each in two
more, and 17 in the other. She has
reared 36 of the pigs and now has 13
suckling.

Arrested at the Prison Door.

Laporte, Ind., Oct. 29.—James Mar-
tin was arrested at Michigan City yester-
day on his release from the northern
prison, by officers from Philadelphia,
who were armed with requisition
papers. Martin was convicted at Terre
Haute of larceny, and he is wanted at
Philadelphia for a similar offense.

Likes the Klondike.

Osgood, Ind., Oct. 29.—John Cerew
arrived home this week from the Klon-
dike, after a four years' sojourn there.
He says report of death and starvation
are greatly exaggerated. He will return
there in the spring. He reports the out-
look for Klondikers good, and says he
likes it there.

BEST OF ALL DOCTORS.

Good Health of Countless Americans Due
to Paine's Celery Compound.

Countless homes in every city in
America have been saved from the sad
loss of some despairing member by
Paine's celery compound.

The story of the life-work of the dis-
coverer of this world-famed remedy is
familiar to most readers. The likeness
of Dartmouth's greatest professor, Prof.
Edward E. Phelps, M. D., LL. D., given
above, is the best portrait of him yet
printed.

"Excepting its handful of magnificent
statesmen and its military heroes," says
the most recent writer upon and critic
of America, "the people owe more to
Dartmouth's physician-teacher than to
any other one man."

"In every walk of life, among the
highest office-holders at the national
capital, in the homes of the best people
in the large cities, among the every-day
folks of the country, families in com-
fortable circumstances; families that
'live from hand to mouth' and could
not, if they wished, afford the service
of any but an ordinary physician—
everywhere I have met people to whom
Paine's celery compound has been a
blessing."

It was the world-famed discovery by
Prof. Phelps of an infallible cure for
those fearful ills that result from an
impaired nervous system and impure
blood which has endeared the great
doctor to the world, and made his life
an era in the practice of medicine.

Prof. Phelps was born in Connecti-
cut and graduated in medicine at Yale.
His unusual talent soon brought him

reputation and prominence among his
professional brethren. First he was
elected to the professorship of anatomy
and surgery in the Vermont Univer-
sity. Next he was appointed lecturer
on materia medica and medical botany
in Dartmouth College. The next year
he was chosen professor of the chair
then vacated by Prof. Ruby and oc-
cupied the chair, the most important
one in the country, at the time when he
first formulated his most remarkable
prescription.

Prof. Phelps has given to his profes-
sion in Paine's celery compound a posi-
tive cure for sleeplessness, wasting
strength, dyspepsia, biliousness, liver
complaint, neuralgia, rheumatism, all
nervous diseases and kidney troubles.
It is the only specific recognized and
prescribed today by the best physicians
for diseases arising from a debilitated
nervous system. For such complaints
Paine's celery compound succeeds again
and again where everything else fails.

No remedy was ever so highly recom-
mended, because none ever accom-
plishes so much.

Paine's celery compound stands with-
out competition for feeling exhausted
nerves and building up the strength of
the body. It cures radically and per-
manently. A healthy increase in ap-
petite and a corresponding gain in
weight and good spirits follow the use
of Paine's celery compound. It is the
most remarkable medical achievement
of this last half of the nineteenth cen-
tury.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work. This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. The miracle-working medicine is a godsend to weak, sickly, run down people. Price 50 cents. Sold by Wm. F. Peters, Druggist.

Hogan's Alley.

The greatest success achieved in the last decade by any Farce Comedy organization, is that won by "Gillmore & Leonard's Hogan's Alley." This season it is in a new form, being the third edition with all the new and latest features added. Its various characters are taken from real life and was well known when "Hogan's Alley" was the talk of the city of Gotham; among them "The Yellow Kid," Hogan and Brogan, Liz, Luke, Alex and George, the Parrot and Goat who create all the disturbance etc. The play keeps the audience in a continual roar of laughter from curtain to curtain. "Hogan's Alley" is a play that one never tires of and will be seen at the Opera House on Monday night, Oct. 31.

Spain's Greatest Need.

Mr. R. P. Oliva, of Barcelona, Spain, spends his winters at Aiken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest blood and Nerve Remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Large bottle, guaranteed, only 50 cents. Sold by Wm. F. Peters, Druggist.

Our little boy was afflicted with rheumatism in his knee; and at times unable to put his foot to the floor. We tried in vain, everything we could hear of that we thought would help him. We almost gave up in despair, when some one advised us to try Chamberlain's Pain Balm. We did so, and the first bottle gave so much relief that we got a second one, and, to our surprise, it cured him sound and well.—J. T. Bays, Pastor Christian Church, Neodesha, Kan.—For Sale by C. W. Milhouse.

Miss Ella Monahan went last evening to Beck's Grove to visit relatives till after Sunday.

Goldsmith's Generosity.

A beggar once asked alms of Oliver Goldsmith as he walked with a friend up Fleet street, and he gave her a shilling. His companion, knowing something of the woman, censured the writer for his excess of humanity, saying that the shilling was misapplied, as she would spend it for liquor. "If it makes her happy in any way, my end is answered," replied Goldsmith. Another proof that the doctor's generosity was not always regulated by discretion was at a time when, after much delay, a day was fixed to pay the £40 due his tailor. Goldsmith procured the money, but a friend calling upon him and relating a piteous tale of his goods being seized for rent, the thoughtless but benevolent author gave him all the money. The tailor called and was told that if he had come a little sooner he could have had the money, but that he had just parted with every shilling of it to a friend in distress, adding, "I would have been an unfeeling monster not to have relieved trouble when in my power."

Swiss Funeral Customs.

Swiss funeral customs are most peculiar. At the death of a person the family inserts a formal black edged announcement in the papers asking for sympathy and stating that "the mourning urn" will be exhibited during certain hours on a special day. In front of the house where the person died there is placed a little black table, covered with a black cloth, on which stands a black jar. Into this the friends and acquaintances of the family drop little black margined visiting cards, sometimes with a few words of sympathy on them. The urn is put on the table on the day of the funeral. Only men ever go to the churchyard, and they generally follow the hearse on foot.

Tough Fare.

In a New Zealand town one of the municipal candidates, a pronounced Scotsman, had received a present of a huge Scotch thistle, which at the moment happened to be lying on the table of his committee room. A friend, entering, withdrew suddenly with the remark, "I beg your pardon; I didn't know you were at luncheon."—San Francisco Wave.

Two Ways of Putting It.

"I notice, Miranda," remarked Mr. Neggschoice, "that your first husband's clothes do not fit me."

"No, Cyrus," coincided Mrs. Neggschoice, with a little sigh. "You don't fit them."—Chicago Tribune.

Three Doctors in Consultation.

From Benjamin Franklin "When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best; to be chosen in the second place; what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. A Shattered Nervous System. FINALLY HEART TROUBLE.

Restored to Health by Dr. Miles' Nerve.

MR. EDWARD HARDY, the jolly manager of Sheppard Co.'s great store at Briceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nerve. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

IN OPEN MUTINY

Three Camp Hamilton Regiments Secretly Agree to Rebel.

GENERAL SANGER'S ORDER

Third Kentucky, One Hundred and Sixtieth Indiana and Twelfth New York Will Do No Camp Work Until the Order Regarding Passes is Modified—Say They Cannot Go to Town For a Bath.

Lexington, Ky., Oct. 29.—On account of their disorderly conduct and the several shooting scrapes caused by the presence of the soldiers in Lexington at night, General Sanger, division commander, a few weeks ago issued an order allowing but two passes issued from one company at a time and compelling all soldiers to be back in camp at dark. This stringency has affected the line of officers as well, and now, as payday is drawing near the men are chafing under it.

In the Third Kentucky, One Hundred and Sixtieth Indiana and Twelfth New York there is open mutiny. The members of these regiments secretly agreed to rebel against doing any camp service until the order was modified concerning the issuing of passes. The plan as detailed by one of the men of the territorial regiments, was that when the battalions went on dress parade yesterday afternoon the men were to stack arms and refuse to further drill until a change was made in the order of issuing passes.

The officers got wind of the matter and at the last moment an order was issued suspending dress parade for the present. A modification of the order will probably be made, but it is not serious trouble promises. There are no bath houses at camp and the men complain that they are not even allowed to come to town to take baths when they have money to pay for them. Thus they cannot keep themselves in a sanitary condition.

CUBAN NEWS.

General Wood Visits Manzanillo—Commander of the Hist.

Manzanillo, Oct. 29.—The United States gunboat Hist arrived here last night with General Leonard Wood, commander of the military department of Santiago, accompanied by Lieutenant Matthew Hanna. On landing General Wood was visited by Colonel Pettit and his adjutant, and he was subsequently received by Colonel Pettit's entire regiment, General Wood then visited the barracks, hospitals, palaces, customhouse and postoffice.

Colonel Pettit reports that Cuban General Rios is apparently making every effort to prevent the disbanding of his troops.

Lieutenant Lucien Young, the commander of the Hist, created more excitement on landing than even General Wood himself. Crowds gathered at the wharf to see the young commander, who, with Lieutenants Holme and Jung of the Hornet and Wampatuck, defeated a whole flotilla of Spanish gunboats at Manzanillo on July 1 last. The people of Manzanillo consider Lieutenant Young a hero and a terror and think he ought to be an admiral, for, although the Spanish shore batteries in that memorable engagement continued to bombard the American gunboats, it is generally admitted here that it was the shooting of the Hist that caused people to flee to the mountains.

According to reports from the Cuban assembly at Santa Cruz del Sur, General Calixto Garcia has been chosen permanent chairman of the organization. General Maximo Gomez is expected there tomorrow or the next day and it appears that the Céspedes faction believes it can count upon the help of General

There are many thousands of wise women in this country who, when they found that they were suffering from weakness or disease of their distinctly womanly organs, promptly wrote to an eminent and skillful physician, with a world-wide reputation, instead of trusting their cases to some obscure physician with but limited practice and experience. There are many reasons why a wise woman follows this course. The chances are that an obscure physician of small practice will not diagnose troubles of this nature properly. If he does, he will insist on the obnoxious examinations and local treatment from which every sensitive, modest woman shrinks.

The specialist referred to is Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Thirty years ago he discovered a wonderful medicine for diseases peculiar to women, that may be used effectively in the privacy of the home, and does away with all necessity for examinations and local treatment. This medicine is known as Dr. Pierce's Favorite Prescription. It acts directly on the delicate and important organs concerned in wifehood and motherhood. It makes them strong, healthy and vigorous. It allays inflammation, heals ulceration, soothes pain and tones and builds up the nerves. Taken during the period of prospective maternity, it banishes the usual discomforts and makes baby's coming easy and almost painless. It insures the little new-comer's health and an ample supply of nourishment. Over ninety thousand women have testified to its marvelous merits. Medicine dealers sell it.

It is a druggist's business to give you, not to tell you, what you want.

Any willing woman may write to Dr. R. V. Pierce, Buffalo, N. Y., and get free advice. By enclosing 21 one-cent stamps in her letter, to cover cost of mailing only, she may secure a paper-covered copy of the "People's Common Sense Medical Adviser." Cloth bound, 31 stamps.

Big Judgement.

Frankfort, Ky., Oct. 29.—The court of appeals has rendered a decision in favor of Schmidt, trustee, in the suit of the Cumberland and Ohio bondholders against the Louisville and Nashville under which the Louisville and Nashville must pay to the bondholders about \$90,000 interest and penalties, the collection of which it has been resisting.

THE MAINE.

Acme Wrecking Company Asks Authority to Raise the Battleship.

Washington, Oct. 29.—The Acme Wrecking company of San Francisco has made a request upon the navy department for authority to raise the battleship Maine. The company has had experience in raising vessels on the Pacific coast, and representations have been made to the department as to its ability to accomplish the task in Havana harbor.

The company simply asks authority to raise the Maine and bring her to this country. If the government wants the ship after she reaches the United States the company will want to be paid salvage money through condemnation proceedings. It is probable in the case the government did not want the ship the company would exhibit her in the different large seacoast cities of the United States. No money is demanded from the government by the company. It is stated at the department unofficially that in case the company is found reliable the authority asked will no doubt be given.

Comments of the Newspapers on the Peace Commission.

Paris, Oct. 29.—La Volente discussing the Philippine question today says: "The Americans could well make concessions to compensate for their rigor on the Cuban question."

Quoting the Philippine article of the protocol, the paper says: "The wording is vague and forecasts the Spanish contention relative to the meaning of the words 'control' and 'disposition'."

"Spain," La Volente concludes, "is minus money and a fleet to reestablish order and it would be more prudent to allow the Americans to do so, Spain claiming a money indemnity in exchange for her sovereignty over the archipelago, which it would be difficult for the Americans to refuse."

The Ganolis takes the view that the Cuban question was not settled by itself, and that by counter-concessions on the Philippine questions an arrangement mutually satisfactory will be reached.

"But, in the meanwhile," The Ganolis adds, "no decision is possible before the elections, which is according to the desire of the American commission."

General Gomez expects General Garcia to appoint a court martial to try General Garcia for offenses covering practically everything from murder to petty larceny, but the probability is that General Gomez, recognizing Garcia's ascendancy in the assembly will not force the issue.

SCALE AGREED TO.

Glass Manufacturers and Cutters and Fatteners Come Together.

Pittsburg, Oct. 29.—After several months of parleying the scale committees of the American Glass Co. and the representatives of the cutters and flatteners came to an agreement last night. The manufacturers concluded to pay the wages asked by the two trades in question with the understanding that work is to be resumed Thursday morning. On this day the first glass will be blown, provided there are sufficient blowers and gatherers to give the cutters and flatteners work. The starting will be an experiment.

It is understood that the break will first be made in factories where the blowers and gatherers are not in sympathy with Simon Burns, the president of the organization. The officials of the combination say they have assurances from a sufficient number of the various trades that work will be resumed and continued until the season is exhausted.

M. BARD'S REPORT.

The Impression Left on Paris is "Profound, Painful and Discouraging."

London, Oct. 29.—In moderate circles, according to the Paris correspondent of the Times, where a serious effort is being made to discover the truth in the Dreyfus affair, the impression left by the report of M. Bard, official reporter to the court of cassation, and by the requirer (petition) of M. Manau, the procureur general, is "profound, painful and discouraging."

The correspondent of the Times continues: "The thought which weighs like a pall on the country seems to be a reluctance to believe the complete innocence of Dreyfus, because such a belief would involve such terrible censure of those responsible, knowingly or unknowingly, for his condemnation."

Indigent Jamaicans.

Kingston, Jamaica, Oct. 29.—The recent wholesale emigration of indigent Jamaicans to the island of Cuba has evoked a protest from the American authorities at Santiago, and the local government here yesterday issued a memorandum quoting the protest of the American officials and warning British subjects not to proceed to Cuba without adequate means of support.

CHICKAMAUGA PARK

War Investigation Commission Inspects Camp Thomas.

THE STERNBERG HOSPITAL

Methods of the Institution Commended.

Camps Were Located Too Close Together—Statement of Frank A. Bailey Denied—Dr. Craig Says Water Supply From Chickamauga River Was Pure.

Chattanooga, Oct. 29.—The war investigating commission spent yesterday in inspecting Camp Thomas under the guidance of General Boynton, General A. P. Stewart, a member of the Chickamauga park commission, and E. E. Bets, the engineer of the committee.

The inspection began at Lytle station and covered all points of interest in the park and near its borders which have been in any way involved in the controversy concerning the sanitation of the camp, including Sternberg and Leiter hospitals, the various springs from which water was secured by the troops, including the famous Crawfish creek, and the point on Chickamauga creek at which the water of the pipeline supply was taken out.

Special attention was given to this latter place because of the criticisms that have been made upon this source of the camp's water supply.

There were many expressions of commendation of the methods followed at Sternberg hospital, and General Dodge was heard to remark that it was a pity to have to leave an institution so well equipped. They found only 58 patients in the hospital, and most of these were convalescent. All were housed in wooden pavilions, the tents being vacated.

The commission also gave attention to the proximity of the various camps to one another and the depth and location of the sinks. The conclusion seemed quite general that many of the regiments were thrown more closely together than they should have been and that this fault could have been avoided, as there was sufficient space that was not occupied for the accommodation of many thousands more of troops than were ever present there.

Many of the sinks were also found to have been nearer to the tents than proper ideas of sanitation encourage, and in some cases the character of the surface was found to be such as to warrant the conviction that the sinks were shallower than they should have been.

Denied the Statement.

After concluding the inspection of the camp, Major Giffen was asked to make a statement concerning some criticisms of the hospital made in a Vermont newspaper by Frank A. Bailey, who had spent six weeks in the hospital nursing his brother. When he returned home he wrote an article saying, among other things, that he had heard physicians in the hospital tell attendants to give attention to patients who had a chance to recover and not to nurse those who were sure to die, in the presence of those designated as of the latter class, and that he had heard other physicians instruct their helpers to give ice cold baths with the view of "finishing" their patients. Dr. Giffen pronounced as false all the statements made.

Dr. Charles F. Craig, bacteriologist of the Sternberg hospital, was also examined. He was questioned with reference to the water supply of the camp and he expressed the opinion that the water taken from Chickamauga river through the pipe system was purer than that in the wells and springs of the grounds. He had found some sewer bacilli in one or two wells, though no typhoid germs. He had also found impurities in water taken from the springs. He had made two analyses of the water from the river and found it to be entirely wholesome from a bacteriologic standpoint.

Dr. Craig expressed the decided opinion that common house flies are capable of proving a decided source of disease infection and he detailed bacteriological tests showing that they carried typhoid germs upon their feet. He also said that he had macerated a number of flies which had been placed on sugar impregnated with the germ and had procured from them a pure typhoid bacillus culture.

POLITICAL

Hill and Roosevelt Both Speak to Large Audiences.

Elmira, N. Y., Oct. 29.—Ex-Senator Hill made his first political speech since 1894 in his native city last night in the presence of an audience that crowded every available inch of space in the Lyceum theater. Mr. Hill's address was delivered in his usual vigorous style and elicited great applause at times.

He did not make mention of the national Democratic platform nor the silver issue, except to say: "We will cross no bridges until we come to them. Nineteen hundred will take care of itself."

Colonel Roosevelt.

Utica, N. Y., Oct. 29.—Colonel Roosevelt addressed a large gathering in Music hall here last night. He devoted himself largely to an arraignment of the Democratic party upon matters of state taxation. He said in conclusion: "My opponents ask you to vote only as New Yorkers. I ask you to remember every state issue; I ask you to keep in mind, carefully every matter concerning the welfare of New York. But I ask you also to remember that you are not only New Yorkers, but Americans; that you have interests not only in the state, but in the union—which is greater than any state."

The people of Jackson county de-
serve county officers who will perform
all their duties under the statute with-
out being forced to do so by the courts.GENERAL BRagg, the famous democrat
of Wisconsin, has arrived home to vote
but not the democratic ticket. He is
stubborn and refuses to swallow free-
silver, declaring that he shall vote the
republican ticket as the only way to
avoid national dishonesty and ruin.We have always thought there must
be some good in Evangelist Sam Jones,
though it was slow in coming out. To
a reporter in Louisville he said:
"President McKinley is not only a good
clean, Christian man, but he is a good,
clean, safe, conservative President."—
Journal.The Crothersville Commercial con-
tinues to urge the election of John W.
Hamacher for commissioner, yet it
claims to be a democratic paper. Not
strange, though, when you know the
purpose of Hamacher's candidacy.
And then, too, it might be well to
remember that Hamacher is no longer
in line with his party and is urging his
republican friends to vote for John
Burrill.OSCAR BROOKE, ring candidate for re-
corder, let it be known here this week
that the Brownstown democratic crowd
was working in conjunction with that
self-styled "loyal" faction to keep every
man off the election board who is not
in sympathy with the old ring. What
do the people think of such lawless and
outrageous purposes? Can the affairs of
the county be entrusted to men who
are at empt, up a scheme?The fact that the indebtedness of
Jackson county was \$129,960 the first of
April and that it has been increasing at
a rapid rate since that time does not
commend the Burrill crowd to the tax-
payers at all favorable. The ring is
trying hard to explain this indebted-
ness, which is twice as much as any
other county in this part of the state.
Lawrence county, which is by no means
behind the times in the matter of pub-
lic improvements, has an indebtedness
of \$60,000. Bartholomew county, a
county that can not be considered other
than a progressive county, has an in-
debtedness of \$57,000. No other county
adjoining or in this part of Indiana, has
a debt that even approaches it half way.
These conditions are causing the tax-
payers to conclude that they must unite
to overthrow the gang that has been
running the affairs of the county in the
interest of themselves so many years.
They will vote for men whose names
are on the ballot under the open book.

McClure's Magazine for November.
In timeliness, variety, and positive-
ness of quality and interest the Novem-
ber number of McClure's must be pro-
nounced a rare magazine. A character
sketch of Colonel Theodore Roosevelt
presents, in its full picturesqueness, the
personality of one of the most indepen-
dent, original, and forceful of living
Americans. "The Inner History of
Admiral Sampson's Campaign," gives
the full and true story of the finding
and securing of Cervera's fleet. Mr. H.
J. W. Dam's portrayal of "The Mystery
of Vesuvius," as it was exhibited to him
in his own recent explorations of the
volcano, gives a sense of the profundity
and nightiness of the volcano not found
elsewhere. Then there are three or
four very strong short stories—one by
Stephen Crane that shows him to great
advantage in an entirely new field.
The pictures of the number are notable
also—illustrating the several articles
with singular truth and spirit.

GENUINELY HARD UP.

Out of Three Hundred Accepting Free
Beds Only Five Had "The Price."A short time ago a curious test was
applied at the London Congregational
Union's Free Shelter For Homeless Men
at Medland hall, in the east of London.
The object of the test was to ascertain
if the men were really as penniless as
they represented themselves to be. The
free shelter is intended for men who
have not the fourpence necessary to pay
for a night's lodging elsewhere, and one
night Edward Wilson Gates, the shrewd
superintendent of the philanthropic
work of the union, announced that he
would give sixpence to each man present
who could prove that he had some money,
but less than fourpence. A chuckle
laugh passed over the 800, that being
the maximum allowed in the hall.
"But how shall I know that you have
less than fourpence?" asked Mr. Gates.
"Search us!" cried the men.
"You really mean it?"
"Yes.""Very well, but if any one objects let
him go to the gallery, and I guarantee
that he shall not be turned away."
Only five of the 800 went up stairs,
and the others were thoroughly search-
ed by experienced men. Two hundred
and forty-nine had nothing, one had
a farthing, 11 had a halfpenny, one had
three farthings, 13 had a penny, two
had a penny farthing, four had three
halfpence, nine twopenny, three two-
pence halfpenny and two had threepence
halfpenny. Thus out of the 800 men
295 had not the fourpence necessary for
a "fo'penny doss" at a lodging house.
It seems pretty clear, therefore, that the
men were genuinely "hard up."—Lon-
don Quiver.

O. Ye of Little Faith

But when an honest man 65 years of age
and who has live in our city for thirty years
and owns his own property speaks, we must
give ear to his words and have faith in what
he recommends. For that reason we publish
for the benefit of Seymour people the state-
ment of Mr. A. H. West, 31 North St., Sagin-
aw, Mich., as follows: "My back was very
lame, was quite nervous at times, and my
general health was seriously impaired.
Some time ago I was induced try Morrow's
Kid-ne-olds of which I had heard a great
deal. I procured the remedy. I had not
much faith in it as I have previously tried
a large number of kidney pills and kidney
remedies without any particular benefit, but
I want to say that I got simply wonderful
relief within two days after commencing the
use of Kid-ne-olds and that I am now en-
tirely cured."I regard my case as a severe test of the me-
dicine, as so many others had failed me.
My advice to kidney sufferers is to give
Morrow's Kid-ne-olds a thorough trial and
a relief at did."Mr. West had no faith at first but the assur-
ance of his friends induced him to try once
more. The result is given above. Let Mr.
West be your friend and if you suffer with
backache, sleeplessness, nervousness or
take his advice and use Morrow's Kid-ne-
olds and get cured. Mr. West is a grateful
man and will be glad to write you how much
benefitted by the use of Morrow's Kid-ne-
olds. If you will enclose a stamp for reply
Do not confound Morrow's Kid-ne-olds with
any kind of kidney pills; they are not pills
at all but yellow tablets which are put up in
wooden boxes and sell at 50 cents. Morrow's
Liverlax are very small red pellets and cure
constipation; they sell at 25 cents a box.
Both of these remedies are for sale by all
first class druggists and at Alpha Drug
Store or will be mailed by the manufacturer
on receipt of Price: John Morrow & Co.,

Tinplate Workers Agitating a Summer
Shutdown to Reduce Production—State
Benevolent Boards—Fifty Men Thrown
Out of Employment by Fire—Arrested
at the Prison Door.Flora, Ind., Oct. 29.—George Martin,
suspected of having robbed the bank at
this place of \$10,000 last September,
was arrested at Marion late yesterday.
Detectives have been on Martin's track
for some time. It was learned that he
was to receive an express package and
an officer was concealed in the Adams
express office when Martin entered and
asked if there was a package for him.
He was then placed under arrest. The
package was found to contain needles.
Martin claims to be a needle peddler.

NEW SCHEME.

Tinplate Workers Agitating a Summer
Shutdown to Reduce Production.Elwood, Ind., Oct. 29.—A new move-
ment has been started by the tinplate
workers, and it will be taken up by
unionized tinplate employes all over the
United States. Heretofore, the tinplate
factories, unlike the glass industries,
have had no summer stops, and, as a
result, their wages are threatened by an
over production. This can be remedied
only by a suspension of work for a pe-
riod of six weeks or two months during
the hot season. The plan, they argue,
would lower the markets to such an ex-
tent that the manufacturers would be
able to demand higher prices for their
goods, and the result would mean an
advance in the wages of the working-
men.

BUILT HIS TOMB.

David Dow Buried in a Vault Made by
His Own Hands.Sellersburg, Ind., Oct. 29.—David
Dow, a pioneer resident and a promi-
nent and wealthy farmer near here is
dead. Death resulted from pneumonia,
superinduced by injuries sustained from
being thrown from a wagon four weeks
ago. He leaves an estate valued at
\$600,000. About three years ago Mr.
Dow constructed on his farm with his
own hands a vault in which he desired
to be buried, and the remains were in-
terred in the vault today.

SHOT HIS MOTHER.

George Everroad Attempts to Kill His
Wife.Hope, Ind., Oct. 29.—George Ever-
road of this place, shot twice at his wife
and missed her, one of the bullets strik-
ing her mother and severely wounding
her. He then escaped. Everroad was
trying to force his wife to live with
him. His mother is not fatally injured.

Benevolent Boards.

Indianapolis, Oct. 29.—The term of
one member of each of the boards in
charge of state benevolent, reformatory
and penal institutions will expire Jan.
1, and it is said to be the intention of
the governor to reappoint the men
whose terms will expire at that time.
He believes the public institutions of
the state were never so free from po-
litical influences and never better con-
ducted than at this time.

Spurious Coin at Marion.

Marion, Ind., Oct. 29.—George Dale,
a half-breed Indian, was arrested for
attempting to pass a counterfeit dollar.
It now develops that there is a good deal
of spurious coin, dollars and halves,
floating about town. One saloonkeeper
in North Marion has seven or eight
pieces of the counterfeit, taken in in
the last few days.Fifty Men Thrown Out of Work.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work. This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. The miracle-working medicine is a godsend to weak, sickly, run down people. Price 50 cents. Sold by Wm. F. Peters, Druggist.

Hogan's Alley.

The greatest success achieved in the last decade by any Farce Comedy organization, is that won by "Gillmore & Leonard's 'Hogan's Alley.'" This season it is in a new form, being the third edition with all the new and latest features added. Its various characters are taken from real life and was well known when "Hogan's Alley" was the talk of the city of Gotham; among them "The Yellow Kid," Hogan and Brogan, Liz, Luke, Alex and George, the Parrot and Goat who create all the disturbance etc. The play keeps the audience in a continual roar of laughter from curtain to curtain. "Hogan's Alley" is a play that one never tires of and will be seen at the Opera House on Monday night, Oct. 31.

Spain's Greatest Need.

Mr. R. P. Olivia, of Barcelona, Spain, spends his winters at Aiken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest blood and nerve remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Large bottle, guaranteed, only 50 cents. Sold by Wm. F. Peters, Druggist.

Our little boy was afflicted with rheumatism in his knee; and at times unable to put his foot to the floor. We tried in vain, everything we could hear of that we thought would help him. We almost gave up in despair, when some one advised us to try Chamberlain's Pain Balm. We did so, and the first bottle gave so much relief that we got a second one, and, to our surprise, it cured him sound and well.—J. T. Bays, Pastor Christian Church, Neodesha, Kan.—For Sale by C. W. Milhouse.

Miss Ella Monahan went last evening to Beck's Grove to visit relatives till after Sunday.

Goldsmith's Generosity.

A beggar once asked alms of Oliver Goldsmith as he walked with a friend up Fleet street, and he gave her a shilling. His companion, knowing something of the woman, censured the writer for his excess of humanity, saying that the shilling was misapplied, as she would spend it for liquor. "If it makes her happy in any way, my end is answered," replied Goldsmith. Another proof that the doctor's generosity was not always regulated by discretion was at a time when, after much delay, a day was fixed to pay the £40 due his tailor. Goldsmith procured the money, but a friend calling upon him and relating a piteous tale of his goods being seized for rent, the thoughtless but benevolent author gave him all the money. The tailor called and was told that if he had come a little sooner he could have had the money, but that he had just parted with every shilling of it to a friend in distress, adding, "I would have been an unfeeling monster not to have relieved trouble when in my power."

Swiss Funeral Customs.

Swiss funeral customs are most peculiar. At the death of a person the family inserts a formal black edged announcement in the papers asking for sympathy and stating that "the mourning urn" will be exhibited during certain hours on a special day. In front of the house where the person died there is placed a little black table, covered with a black cloth, on which stands a black jar. Into this the friends and acquaintances of the family drop little black margined visiting cards, sometimes with a few words of sympathy on them. The urn is put on the table on the day of the funeral. Only men ever go to the churchyard, and they generally follow the hearse on foot.

Tough Fare.

In a New Zealand town one of the municipal candidates, a pronounced Scotsman, had received a present of a huge Scotch thistle, which at the moment happened to be lying on the table of his committee room. A friend, entering, withdrew suddenly with the remark, "I beg your pardon; I didn't know you were at luncheon."—San Francisco Wave.

Two Ways of Putting It.

"I notice, Miranda," remarked Mr. Neggschoice, "that your first husband's clothes do not fit me."

"No, Cyrus," coincided Mrs. Neggschoice, with a little sigh. "You don't fit them."—Chicago Tribune.

Three Doctors in Consultation.

From Benjamin Franklin

"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best; to be chosen in the second place; what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Inclinatio, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclinatio would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature, plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition.
